Claim Objections

Claim 13 is objected to because of the following informalities: In claim 13 lines 1-2, "the disc" lacks proper antecedent basis. For examination purposes, it has been assumed that claim 13 depends from claim 12 instead of claim 11. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,9,10,11,14,16,17,18 are rejected under 35 U.S.C. 102(b) as being anticipated by Delaurier (6,164,386).

Delaurier discloses an apparatus including a frame bracket, a pair of laterally spaced parallel cylinder bores and cylindrical shafts 62 with a stop 68. Concerning claim 14, members 78 are considered hoe openers since they inherently form a small furrow in the ground.

Allowable Subject Matter

Claims 3-8,12,13,15,19-22 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
